

Bonnie Bar, University of West GA. Nursing Instructor is in the process of finding placements for BSN nursing students to gain experience working with occupational health nurses in a community health nursing course this summer. She would like assistance in locating experienced RN's who work in occupational health in Douglas, Carroll, Coweta, and Cobb counties. She has had several students who have indicated an interest in this field of nursing (Occupational Health).

The class is being offered this summer. Students would need to work 60-70 hours (approximately one day/week) from 6/9-7/29.

Any help you can offer would be appreciated. Thanks so much!
